

KPZ-1100 UV varnish machine

☑ Power saving design

The electronic light source & near-infrared design in drying function

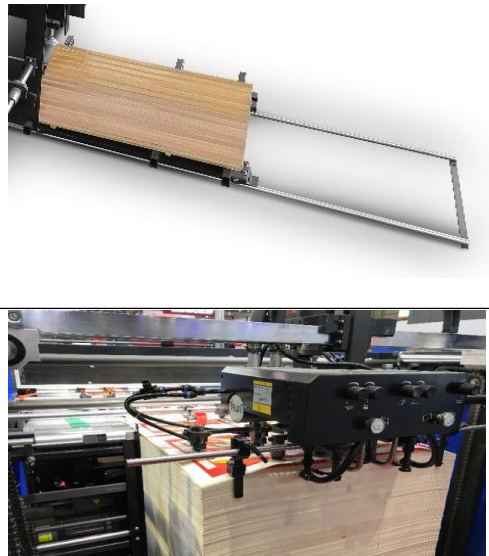

☑ More convenient to use

Detachable oil storage area

Liftable bridge deck

Features:

<p>Automatic Feeder (Piling height 1300mm)</p>		<ol style="list-style-type: none">1.The speed of paper feeder is as high as possible 9000-11000 pieces/hour;2.Convenient to send paper machine to large size and small size paper;3.Four send and four suction feeder. Paper overlapping can be scratch± 2mm;4.Optional: pre-stack paper mechanism, improve machine operation efficiency;
<p>Adopt liftable bridge slab</p>		

Automatic Stacker (Piling height 1300mm)

Increase paper stiffness, fast and stable transfer paper and paper;
Reduce the speed of the paper to prevent the paper from touching the paper edge.

Main Technical Parameter:

	KPZ1000MW	KPZ1000LW	KPZ1300XLW	KPZ650U
Max. sheet size(W*L)	1080*1200mm	1080*1450mm	1300*1650mm	650*740mm
Min. stripping size(W*L)	320*260mm	320*350mm	320*400mm	320*260mm
Paper Thickness	80-500g/m ²	80-500g/m ²	80-500g/m ²	80-500g/m ²
Speed	25-100 meters / min	25-100 meters / min	25-100 meters / min	25-100 meters / min
Max. consumption power	65KW (AC380 V/3PH/50Hz)	65KW (AC380 V/3PH/50Hz)	76KW (AC380 V/3PH/50Hz)	18KW (AC380 V/3PH/50Hz)
Machine weight	7500kg	7600kg	8600kg	1500kg
Dimension(L*W*H)	12500*2000*2000mm	13400*2000*2000mm	14100*2200*2200mm	6000*1600*1610mm
Maximum feeder height	1300mm	1300mm	1300mm	1300mm
